Kidney trouble preys upon the mind, discourages and leasens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent

that it is not uncommon

for a child to be born afflicted with weak kidneys. If the child urinates too often, if the arine scalds the flesh or if, when the child reaches an age when it should be able to ontrol the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. DECISION ON PORTO RICO. Is a Foreign Country Yet in Some Respects.

New York, June 14 .- Judge W. K lownsend, in the United States dis-rict court of the southern district of New York today handed down an opin-ion in the case of John H. Goelz & Co. vs the United States, in which he de-clared the treaty of Parls valid and that the status of the people of Porto Rico is that of inhabitants of a foreign country as regards the Constitution of the United States and within the mean-

ing of the tariff acts.

Judge Townsend held that Porto
Rico is part of the United States so
far as other countries are concerned, but so far as the Constitution of this country is concerned is a foreign coun-try, and that the United States can govern it without subjecting it to the burden of naional taxation and that the status of the inhabitants will renain unchanged until Congress shall

### LONDON IS NOT AT ALL HAPPY.

Optimism Induced by Lord Roberts: Dispatches is Artificial.

MUCH WORK YET TO BE DONE

Boer Forces Lost No Guns and Few Men-Klorksdorf Surrenders-More Fighting Ahead.

[Early Dispatches.] New York, June 15 .- A dispatch to the

fribune from London says: The optimism induced by Gen. Roberts' dispatch is artificial. Gen. Methuen's success in restoring communication with Pretoria has not altered the the fact that the Free State raiders have taken over a thousand prisoners at Lindley and Roodeval, and retreated with them and their guns, and that the raids may be repeated. Dewet's commandos have not been dispersed ,and whatever precautions may be taken there will be danger of anther raid, since the railway cannot be absolutely protected by infantry battalions nor by artillery trained all long the line from Bioemfontein to

section of the Free State has not ye seen effected, and operations by the columns from Hellbron, Lindley, kal and Ficksburg are rendered diffi-

cult by the transport problem. Gen. Buller has cleared Laings Nek and Gen, Lyttleton has received the submission of the Wakkerstroem district, but the Boer army has not been captured. It has retired with all its guns and supplies, and will fight again in the mountainous district remote

BOER FORCES NOT DISPERSED. Botha's army has also withdrawn from the position which it held for two days against Gen. Roberts' forces east of Pretoria, but it has not been dispersed, nor have the British taken

either guns or prisoners. dleburg are mutually helpful and can be concentrated in the Lydenburg districts, and Dewet's commandos o-operate with them effectually in the Free State.

The most encouraging feature of vesterday's news for the British was the evidence that the damage done to Laings Nek tunnel and the section of rallway north of Kroonstad was not serious, and that both lines of commu-nication would be in working order in few days. With unimpeded supplie for two large armies operating in the Lydenberg either from the West or from he south and the resistance of Dewet's raiders ought to be speedily overcome by the British forces under Rundle, with help from Buller,

FREE STATE TO BE PACIFIED Military men state that Gen. Me-thuen will be left in command of the forces along the railway from Kroon-stad to the Vaal, and that Gen. Hunter's division, after reaching Johannes-burg, will be sent to Heidelberg and will open the railway to Standerton. Eventually Dewet's forces must be vasion of the Lydenberg district, and en. Kitchener is likely to remain at Kroonstad until the campaign in the Free State has been again set in or-

There have been many stories about bad feeling and lack of co-operation betwen Roberts and Kitchener, but these are not well founded. Gen. Kitchener, as chief of staff, works inessantly, and is Roberts' trusted lieutenant, especially in managing the de-tails of the transport. Kitchener is not liked in the army, on account his brusque manners, but Lord Roberts konws how to get on with him as well as with everybody else.

KLORKSDORF SURRENDERS. London, June 15, 11:15 a. m.—The war office issues the following dispatch

from Lord Roberts: "Pretoria Residency, June 14, 10:40 p. m.-Klorksdorf surrendered on June 9 to an armed party sent on by Hunter. Kitchener reports that the Boers attacked a re-construction train early this morning, a few miles north Rhenoster river. He sent out mounted troops and drove off the enemy before they could do damage. One man was killed and eleven wounded, including

two officers. 'A message from Klorksdorf reports that Cronje, who commanded there, determined to surrender as soon as he knew for certain that Pretoria was in our possession. His example has ben copied by many in the neighbor-our possession. His example has been hood. The court house is now said to be full of arms."

BOERS KEEP THEIR GUNS.

3:30 a. m.-That Com. Gen. Luis Botha should have been able to stand for two days against Lord Roberts and then to retreat without losing any guns or having any of his men captured, is taken to mean that he has a force which the British must still reckon as formidable when acting defensively.

Lord Roberts' engagement with Gen.
Botha terminated as expected by the Boer commander-in-chief retiring from his position. Beyond driving Botha further from the capital, little seems to have been accomplished, as Lord Roberts does not mention the capture f prisoners or guns, or the infliction of A Boer bulletin issued June 12th

Machadodorp, said: "Both wings of the federal forces touched the advancing army at 1 a. m. yesterday east of Pretoria. Fighting continued until dark. The enemy, ough in overwhelming numbers, were ecked along the line of thirty-six miles and the burghers succeeded in driving back their right wing five miles. Two burghers were killed and ten wounded."

Demands on the Treasury. New York, June 15.-A special to the ournal of Commerce from Washington,

The treasury is facing the crop mov ing season very well equipped with government notes, but under some pressure in regard to supplying the large volume of new bank notes which have been applied for under the gold standard law. The probability of a heavy demand for notes was antici-pated early in the winter. Precautions were taken to print a large stock of silver certificates of the denomination of \$1 and \$2, and United States notes of larger denominations. Treasury notes issued under the Sherman law are no longer being printed in accordance with the mandate of the gold standard law for their gradual retirement. As a result of the precautions taken early in the winter it has been possible to reduce the printing of gov-ernment notes somewhat and to put the force of the bureau of engraving and printing more largely on to new bank notes. It is proposed after this week to begin work upon the new sil-ver certificates for \$5 for which the de-

It has been the experience the after notes have been issued of a ne design there is great unwillingness ccept those of an old design, ever then fresh. For this reason few cer ificates for \$5 have been issued re ons have been made to issu eady. The treasury will be amply sup e somewhat handicapped in issuing different class of note from that ffered for exchange, because of the cant margin of authorized issues. The United States notes on hand June 11 were \$21,993,702, and silver certificates \$7,369.332. This total of more than \$29,-000,000 is about \$12,000,000 better than the minimum of last summer and au-tumn, but it might very soon be exhausted by heavy demands.
